

RELIABILITY ENGINEERING

Training offered by A-P-T Research, Inc.

The Reliability Engineering training course is designed for professionals wanting to advance their understanding and knowledge in reliability engineering and risk assessment tools and techniques and their application in technical assessments and special studies. The course includes an introductory module of key definitions, basic statistics, and a review of the basic principles of the reliability engineering discipline, including a description of a reliability case for establishing and managing a reliability engineering program. The rest of the course modules focus on reliability engineering and risk assessment tools and techniques used by engineering professionals throughout government and industry. The course modules are listed below:

- Introduction
- Probability Basics
- Reliability Engineering Overview
- Failure Modes and Effects Analysis (FMEA)
- Reliability Allocation
- Reliability Prediction
- Reliability Demonstration
- Reliability Growth
- Fault Tree Analysis (FTA)
- Event Tree Analysis (ETA)
- Probabilistic Risk Assessment (PRA)
- Human Reliability
- Accelerated Testing (ALT, HALT, HASS)
- Parts Derating
- Sneak Circuit Analysis
- Availability Analysis.
- Concluding Remarks
- Summary Tables

Dr. Fayssal Safie, Instructor

Dr. Safie is a Principal Reliability Engineer at APT with over 30 years' experience in the areas of reliability, safety, risk assessment and quality engineering. He holds Bachelor, Master, and Doctorate degrees in Systems Engineering. He received over 50 honors and awards from NASA and retired from MSFC in 2017 as the Agency Technical Fellow For Reliability and Maintainability Engineering.

Course Duration and Format

The course is 24 hours over 3 days, with about 6 hours of lecture each day and time for students to complete workshop problems or review course materials with the instructor. Class size will be limited to 30 attendees. Attendees of this course will typically be awarded up to 2.4 Continuing Education Units (CEU) upon completion of the course.

Safety Engineering and Analysis Center

The APT Safety Engineering and Analysis Center (SEAC) is conveniently located in Cummings' Research Park near Redstone Arsenal in Huntsville, AL.

Where

The A-P-T Research, Inc. Safety Engineering and Analysis Center in Huntsville, AL, webcast, or customer location as requested.

Schedule & Cost

Offered on a regular basis. Visit www.apr-research.com/training for specific dates and prices.

Other Courses Available

- System Safety Engineering
- Software System Safety Engineering
- Explosives Safety
- Managing Risk for Multiple Disciplines
- Radiation Safety Basics
- IMESAFR Software
- SAFER Software
- Counter-IED Training & Training Devices
